PROFESSIONAL EXPERIENCE

Full-Stack (MERN-Stack) Developer

Codeformers (full time)

Dec 2023 – present | Nashik, Maharashtra

- Oversaw maintenance of Accpal, ensuring stability and reliability through proactive management and effective troubleshooting.
- Contributed to both frontend and backend functionalities in Accpal, showcasing versatility and proficiency across the software development stack.
- Utilized debugging and troubleshooting techniques to promptly resolve issues, ensuring seamless functionality and user satisfaction in Accpal.

MERN-Stack Developer

Webient Technologies (full time)

May 2023 – Nov 2023 | Gurgaon, Haryana

- Developed robust admin panels for Pink Apron, Ub-Factory, and The St. Lucian Hub-HubLA Admin Panel, showcasing proficiency in software development.
- Created a live streaming application utilizing the MERN Stack, demonstrating comprehensive expertise in full-stack development.
- Executed a significant web3 project using React.js for Bitgert, showcasing advanced skills in modern web technologies.

MERN-Stack Developer / Frontend Developer

Dashmed (internship)

Apr 2022 – May 2023 | Remote, India

- Implemented authentication features within Dashmed-web using Next.js, enhancing user authentication flow and overall experience.
- Developed and maintained web applications using MongoDB, Express.js, React, and Node.js
- Assisted in designing and implementing RESTful APIs
- Collaborated with UI/UX designers to create responsive and user-friendly interfaces
- Debugged and optimized code for improved performance
- Participated in code reviews and team meetings to ensure project alignment

PROJECTS

[1] Bitgert 📄

- Spearheaded the development of an online real estate marketplace, connecting clients with industry professionals.
- Engineered a multi-channel e-commerce platform for streamlined transactions.
- Utilized CSS, React.js, Chakra UI, Web3, Thirdweb and Blockchain technologies to optimize user experience.

[2] WebTaskit 📄

- Collaborated with a team of 5 members to develop a task-tracking website, leveraging collective expertise for successful project completion.
- Specialized in implementing robust task management functionality to optimize organization and planning processes, ensuring efficient task tracking and allocation.

[3] Pharameasy 📄

- Spearheaded the development of Pharameasy, a consumer healthcare "super app" providing on-demand access to prescription and OTC pharmaceuticals, catering to diverse consumer needs.
- Orchestrated the creation of a high-fidelity demo project alongside a cross-functional team of 5 experts, harnessing design and front-end development skills to deliver an innovative and user-centric solution.
