PROJECTS

[1] Grocery Mart ⎘
- **GitHub Link** ⎘
- **Description** Grocery Market is a meticulously curated online food and grocery store, offering a wide range of products and renowned brands. From fresh produce to pantry staples, beverages, personal care items, and meat selections, our platform provides everything customers need. Developed as an individual project, the Grocery market reflects my dedication to delivering a seamless online shopping experience.

[2] WebTaskit ⎘
- **GitHub Link** ⎘
- **Description** I contributed to the development of a task-tracking website as part of a dynamic team of 5 members. My primary focus was implementing a robust task management functionality, empowering users to efficiently organize and plan their tasks. Additionally, I integrated a calendar feature into the website, providing users with valuable tools to track events, and dates, and plan their monthly schedules effectively.

[3] Pharmeasy ⎘
- **GitHub Link** ⎘
- **Description** Pharmeasy is a consumer healthcare "super app" that provides consumers with on-demand, home-delivered access to a wide range of prescription, OTC pharmaceuticals, other consumer healthcare products, comprehensive diagnostic test services, and teleconsultations, serving their healthcare needs.
