Communication, Teamwork

🧠 TECHNICAL SKILLS

HTML & CSS, Git, JavaScript, Typescript, Next.js, React.js, Node.js, Express.js, Rest API, JWT, Mongo DB, Chakra UI, NPM, Redux / Redux Toolkit, Networks calls, Tailwind CSS, Postman, Material UI

🏅 CERTIFICATES

Communication Skill ⧉
TCS-ion

Zoom marathon challenge ⧉
Masai School

💼 WORK EXPERIENCE

Frontend Engineer
Vidyovate Pvt. Ltd. (full time)
Jun 2025 – Present | Delhi, India
- Developing Zekosoft, a cloud-based platform for accounting, payroll, and invoicing that helps small businesses in Sweden streamline workflows, collaborate with accountants, and manage finances efficiently.

Full-Stack (MERN-Stack) Developer
Codeformers (full time)
Dec 2023 – Jun 2025 | Nashik, Maharashtra
- Boosted system performance and efficiency through integrated solutions and streamlined frontend-backend communication, employing advanced debugging methods for swift issue resolution.
- Optimized maintenance strategies to ensure system stability and reliability.
- Full-stack development of Accpal (An innovative digital solution uniquely designed to efficiently manage your Tax, Secretarial, and Financial Quality Control needs - developed exclusively by our firm), Zupport & Order management.

MERN-Stack Developer
Webient Technologies (full time)
May 2023 – Nov 2023 | Gurgaon, Haryana
- Developed comprehensive admin dashboards for Pink Apron, Ub-Factory, and The St. Lucian Hub-HubLA Admin Panel, providing intuitive interfaces for efficient management and oversight.
- Exhibited full-stack development expertise by creating a robust live-streaming application using MongoDB, Express.js, React, and Node.js.
- Implemented a significant web3 project using React.js for Bitgert, demonstrating advanced skills in modern web technologies.

MERN-Stack Developer / Frontend Developer
Dashmed (internship)
Apr 2022 – May 2023 | Remote, India
- Built robust authentication in Dashmed-web using Next.js, improving user experience and security. Developed scalable web apps with MongoDB, Express.js, React, and Node.js.

📁 PROJECTS

[1] Zekosoft
- Designed and enhanced Zekosoft's modular ecosystem supporting finance, operations, and CRM functions.
- Implemented advanced time tracking and inventory features to strengthen business process automation.
- Contributed to developing cloud-native solutions, improving operational accuracy and team productivity.

[2] Accpal ⧉
- Optimized tax processes for better control and efficiency with automated financial statements.
- Enabled real-time client financial updates for streamlined reporting.
- Implemented system-driven tax updates, ensuring compliance and seamless management.

[3] Bitgert ⧉
- Developed a platform connecting clients with realtors and brokers, integrating multi-channel e-commerce for seamless transactions.
- Built with React.js, Chakra UI, Web3, and Thirdweb to enhance efficiency and user experience.
