PROFESSIONAL EXPERIENCE

Full-Stack (MERN-Stack) Developer
Codeformers
Feb 2024 – present | Nashik, Maharashtra

- Oversaw maintenance of Accpal, ensuring stability and reliability through proactive management and effective troubleshooting.
- Contributed to both frontend and backend functionalities in Accpal, showcasing versatility and proficiency across the software development stack.
- Utilized debugging and troubleshooting techniques to promptly resolve issues, ensuring seamless functionality and user satisfaction in Accpal.

Frontend Developer
Dashmed
Dec 2023 – Feb 2024 | Remote, India

- Implemented authentication features within Dashmed-web using Next.js, enhancing user authentication flow and overall experience.

MERN-Stack Developer
Webient Technologies
May 2023 – Nov 2023 | Gurgaon, Haryana

- Developed robust admin panels for Pink Apron, Ub-Factory, and The St. Lucian Hub-HubLA Admin Panel, showcasing proficiency in software development.
- Created a live streaming application utilizing the MERN Stack, demonstrating comprehensive expertise in full-stack development.
- Executed a significant web3 project using React.js for Bitgert, showcasing advanced skills in modern web technologies.

PROJECTS

[1] Pink Apron Admin Panel

- Monitored and managed home chefs' profiles, overseeing approvals, updates, and removals.
- Implemented menu listings and updates from home chefs, ensuring accuracy and quality control.
- Developed order management systems, including tracking, status updates, and cancellations, to optimize efficiency.

[2] Bitgert ⇗

- Spearheaded the development of an online real estate marketplace, connecting clients with industry professionals.
- Engineered a multi-channel e-commerce platform for streamlined transactions.
- Utilized CSS, React.js, Chakra UI,Web3, Thirdweb and Blockchain technologies to optimize user experience.

[3] WebTaskit ⇗

- Collaborated with a team of 5 members to develop a task-tracking website, leveraging collective expertise for successful project completion.
- Specialized in implementing robust task management functionality to optimize organization and planning processes, ensuring efficient task tracking and allocation.

[4] Pharmeasy ⇗

- Spearheaded the development of Pharmeasy, a consumer healthcare "super app" providing on-demand access to prescription and OTC pharmaceuticals, catering to diverse consumer needs.
- Orchestrated the creation of a high-fidelity demo project alongside a cross-functional team of 5 experts, harnessing design and front-end development skills to deliver an innovative and user-centric solution.
